

Pawlos Diriba

Full-Stack Developer · Backend Engineering Intern

Ethiopia · paudiriba@gmail.com · paul-animations-studio.lovable.app

PROFILE

Software Engineering student at Haramaya University building modern web apps with React, Next.js, and TypeScript on the frontend and Spring Boot, PostgreSQL & Kafka on the backend.

EXPERIENCE

Backend Engineering Intern

Atlas Computer Technology

Oct 2025 – Present

- Spring Boot + PostgreSQL microservices for modular, maintainable services
- Kafka event streams for real-time cross-service data processing
- Query & index tuning reduced API latency by 35%

Software Development Intern

INSA (Info Network Security)

Feb 2026 – Present

- Contributing to production web systems (frontend & backend)
- Collaborating with engineering teams on system design
- Strengthening problem-solving and delivery practices

Freelance Web Developer

Self-Employed

2023 – Present

- 5+ client projects delivered with 100% satisfaction
- React / Next.js apps with responsive, modern UI

Software Engineering Student

Haramaya University

2021 – Present

- 4th-year, focus on full-stack development
- Active in coding projects and continuous learning

SKILLS

Frontend

React.js	92%
Next.js	85%
TypeScript	80%
Tailwind CSS	95%
JavaScript ES6+	90%

Backend & Database

Spring Boot	78%
PostgreSQL	80%
Apache Kafka	72%
Docker	75%
Supabase	85%
REST APIs	85%

Design & UI/UX

Responsive Design	92%
UI/UX Principles	85%
Figma	80%

Tools

Git / GitHub	90%
Vercel	88%
Postman	80%

Education

B.Sc. Software Engineering

Haramaya University · 2021 – Present
